Oluwole Fabikun

+1 857-236-0685 | Boston, MA | wole359@gmail.com | wolefabikun.com

Education

University of Massachusetts-Amherst, Amherst MA B.A. in Computer Science, Biology Minor

Expected May '24

Related Courses: Algorithms, Data Structures, Advanced Computation, Database Management, Web Programming, Human-Comp Interaction, Data Forecasting, Computational Statistics

Extracurriculars: National Society of Black Engineers Academic Outreach Chair, ColorStack Member, HackUMass, UMass Brotherly Union, UMass Fashion Organization, Barber/Founder of Wole's Cuts

Awards & Scholarships: Microsoft Power Platform Champion Award, National Science Foundation LSAMP Funding, Raymond D. Gozzi Scholarship, David Knapp Scholarship, John & Abigail Adams Scholarship, Class of 1971 Scholarship

Technical Skills

Languages: Python, Typescript, Java, SQL, HTML, CSS

Frameworks/Libraries: Express, NextJS, React, Node.js, Flask, Django, TailwindCSS, Matplotlib, Pandas, OpenAl API

Tools: Git, PostgreSQL, Postman, Firebase, Jupyter Notebook, Power BI, Figma,

Experience

Software Developer - BUILD UMass

Aug '23 - Present

- Collaborating on a team of five to elevate the Amherst Ballet School website's functionality and user experience by leveraging **React**, **Django** and **Firebase**, focusing on modernizing online presence and improving user engagement
- Applying Agile methodologies such as Scrum standups and sprints, effectively maneuvering through technical complexities, ensuring steady progress, and adherence to project timelines

Machine Learning Research Intern – Laboratory for Advanced System Software

Aug '23 - Present

- Spearheading a deep learning research initiative focused on the implementation of computer vision techniques for over 90% accuracy in identifying solar potential of roofs
- Utilizing Python, computer vision libraries, and satellite imagery data to develop and test models
- Creating custom solar energy generation applications with Flask to enhance data visualization, user interaction, and
 optimize research efficiency

Developer Intern – Nucor Skyline

Jun '23 - Aug '23

- Designed and implemented a secure RESTful API using ASP.NET core, enabling JWT token-based user
 authentication and authorization, while collaboration with team members to integrate the API into the project ecosystem
- Utilized **Salesforce Object API** in **Power BI** to optimize data retrieval and analysis processes for improved business insight efficiency and enable seamless integration between Salesforce and Power BI
- Developed a dynamic credit Dashboard in Power BI that enabled real-time visualization of quote data, leading to a **20%** improvement in sales analysis accuracy and empowering daily data-driven decision-making

Data Research Intern – Laboratory for Advanced System Software

Oct '22 - Jun '23

- Cooperated with ValleyBike Share to meticulously process CSV files, enabling statistical scrutiny of electric bike usage across western Massachusetts
- Employed Python and libraries such as Pandas and Matplotlib within Jupyter Notebook to analyze data and produce dynamic, insightful visualizations
- Demonstrated strong communication, understanding of findings, and problem-solving skills through visual presentation of research findings and contribution to group discussions

Projects

Solar Energy Modeling Application

Sep '23 - Current

- Spearheading the development and publishing of a comprehensive full-stack application utilizing Flask and Python, powered by the NSRDB API to empower researchers by providing enhanced access to historical solar energy statistics
- Customizing application to allow users to adjust parameters such as intervals and attributes to access historical solar energy data
- Significantly improving the application's user-friendliness, ensuring accessibility for researchers across various expertise levels in solar performance modeling

Personal Portfolio Website

Aug '23

- Engineered a dynamic personal portfolio website using React, Tailwind CSS, and modern web development practices
- Leveraged server-side rendering (SSR) and markdown components (MDX) to ensure performance and SEO friendliness
- Created an intuitive and visually appealing user interface with a mobile-responsive design
